Response to Office Action

Please amend the application as follows:

In the Claims:

1) (Amended) A system for making advertisements available to web sites on the Internet which

includes:

a web server which stores advertisements,
means for supplying selection criteria for view-ops which have particular characteristics, and
bid selection logic which makes calculations as each view-op is presented to determine[s] if an
advertisement should be supplied in response to a particular view-op, said calculations [taking
